Overview

Empowering the Nation was established in 2018 and offers courses in Johannesburg. Hundreds of domestic workers and gardeners have been trained on both the six-month long Learnerships and six-week Short Skills Training Programmes to empower themselves and can provide more marketable skills. The six-month programmes take place over 12 weeks and the short courses take six weeks.

DEMONSTRATION

# Conclusion:

In summary, "Empowering the Nation" represents a vital initiative aimed at uplifting individuals within the community through skills training. By developing a web page and mobile app, we will enhance visibility, facilitate communication with potential customers, and streamline the process of providing quotes for services.

Our design choices will reflect the professionalism and purpose of the organization, aligning with Precious Radebe's vision to empower domestic workers and gardeners. Through this initiative, we not only create opportunities for personal and economic growth but also contribute to the overall betterment of the community.
